

Framo Morat is a market leader for high-quality gearing technology and drive solutions. Headquartered in Eisenbach within the Black Forest region of Germany, Framo Morat serves our customers through the entire design process – determining specification requirements, product development & design, prototyping, testing, assembly, and mass production.

## Design Engineer (m/f/d)

At Framo Morat Türkiye - our Turkish division of the German [Franz Morat Group](#) - we are always looking for ways to improve our products and processes. We are currently seeking a Design Engineer to join our international team at our Izmir offices. The ideal candidate will have design experience, and use creativity to ensure the right path to create what our customers need. He/she should stay updated with industry trends to keep ahead of our competitors and strive to produce consistently great work. This role has full interaction with our German team.

### Duties & Responsibilities

- Support Product Engineering Team at Framo Morat Türkiye and Framo Morat Germany in various engineering tasks:
  - o Support in conceptual design of new products
  - o Support with basic calculations
  - o Design 3D CAD models of components, assemblies, and/or systems that satisfy the form, fit, and functional requirements of complex mechanical designs.
  - o Elaboration of detailed technical drawings for Production Design
- Stay current with latest design software improvements and upgrades.
- Collaborate with Product Engineering, Technology Department, Industrial Engineering, Sales Department and Procurement department

### Required Skills and Qualifications

- Proficiency in Microsoft Office Applications
- Bachelor's degree in Mechanical Engineering or related fields
- In recruiting our team, we welcome the unique contributions that you can bring (0-3+ years' experience).
- English Intermediate/Advanced Level
- Creative
- Excellent Communication
- Ability to work independently and with international teams

### Preferred Skills and Qualifications

- German language skills are desirable
- Knowledge on Autodesk Inventor Software is desirable
- Experience with dimensional and geometrical tolerancing (ISO GPS System)
- Experience with SAP
- Military service completed
- B Class Driver License
